

From our Executive Director

Dear Friends and Supporters,

As we release our 2023 Q3 Impact Report, I'm excited to share the significant strides The Addis Clinic has made. This quarter, we've expanded our reach and deepened our impact.

Highlights include:

- Initiating a Telemedicine Training Academy in Mogadishu, equipping healthcare workers with essential skills.
- Launching the 4th academic year of our global health telemedicine course, shaping future medical leaders.
- Serving thousands through precision telemedicine, which adapts healthcare solutions to each community's unique needs.

An energizing in-person Board of Directors meeting also set our course for the rest of 2023 and into 2024, reaffirming our mission and strategic goals.

Your support drives these achievements. This report showcases the tangible impact of our collective efforts. I hope you feel proud and connected to our journey as you read. Your ongoing partnership is crucial as we tackle future challenges and seize new opportunities.

Thank you for joining us in this mission. Together, we're creating a healthier, more hopeful world.

Sincerely yours,

A handwritten signature in black ink that reads "Meghan E. Moretti". The signature is fluid and cursive.

Meghan Moretti, Executive Director at The Addis Clinic

Our HIV Messaging and Outreach Program registered **7662** patients living with HIV

We've kept in touch with them via **78759** SMS messages
402 phone calls

Sending daily messages has had a really positive impact on my clients by reminding them about their clinical appointments. It also helps with giving health education on the importance of adhering to their medication schedules, which thus improves the conditions of many patients with high viral loads.

- Trruphena Nyambusi Magara
HIV Messaging & Outreach Team,
Homabay County, Kenya

Our Somali Maternal and Child Health Program was able to provide comprehensive support and medical care to **4340 women, girls, and children**

via

3816 community outreach visits

695 household visits

524 health screenings

407 pre and postnatal care visits

Our Women and Girls' Health Programs in Kenya served a total of **1402** women, adolescents, and girls

via
858 community outreach visits
544 health screenings

We participated in a mental health literacy program run by the Agha Khan University's Institute of Human Development and have dialogues with members of the community about mental health. This will greatly improve how we provide care to our female patients, especially when we are providing psychosocial support.

- Caroline Wanjau

Girl's Health and Safety Program
Kwale County, Kenya

We consulted on over **200** cases through our **Telemedicine Program**

In July and August, The Addis Clinic conducted a 4 week long training workshop on Telemedicine in Primary Care in partnership with Humanity Inclusion for Sustainable Advocacy in Mogadishu, Somalia. The program worked with 15 healthcare providers from a variety of health professions including nurses, public health workers, and clinicians.

- Ibrahim Mohamed, Somali Maternal & Child Health Program, Mogadishu, Somalia

Quarter Highlights

Muna Muday
Director of Programs

Muna recently participated in the **One Campaign's Annual Power Summit** in Washington DC, joining over 100 advocates from around the United States. Muna met with Members of Congress and senators on Capitol Hill, advocating for the **reauthorization of PEPFAR**, the pivotal **HIV/AIDS-fighting program** that has saved 25 million lives. This advocacy work seamlessly aligns with our mission to not only deliver direct healthcare services but also to **influence systemic change and policy decisions**. We are amplifying our impact and contributing significantly to the global fight against HIV/AIDS.

Quarter Highlights

In September, Antony was selected to be a **second-year fellow** with the **Dovetail Impact Foundation's** Acceleration Portfolio. This was an incredible achievement as only **half of all first-year fellows** were chosen to continue on with a second-year fellowship. The Dovetail Impact Foundation works with partners who work to create a **meaningful impact in the world**, and Antony's dedication, passion, and powerful work set him apart from his peers.

Antony Kimathi
Kenya NGO Director

We can't **thank you** enough for all your support!
